PROFESSIONAL SUMMARY

Full-stack developer with experience building **production-grade web applications** using **Next.js, React.js, Node.js, Express.js, TypeScript, and MongoDB**. Skilled in developing **responsive user interfaces, RESTful APIs**, and end-to-end features such as **authentication, payments**, and **SEO-ready platforms**. Focused on writing **maintainable, scalable code** and delivering **reliable, user-centric products**.

PROFESSIONAL EXPERIENCE

Meri Bhakti (Rashi Technologies)

New Delhi

Full-Stack Developer (Aug 2025 – Present) | Frontend Developer Intern (Feb 2025 – Jul 2025) 🔗

- Built responsive, **performance-optimized UI components** using **Next.js, React, and Tailwind CSS**, improving interface consistency, usability, and **Core Web Vitals**.
- Developed and integrated **REST APIs** using **Node.js, Express, and MongoDB**, reducing redundant backend calls by **10–15%** through improved API structuring.
- Implemented **internationalization (i18n)** using **next-intl**, supporting multiple languages across all major user-facing pages.
- Delivered the **end-to-end Chadhava booking flow**, from **UI design to backend APIs** and **payment gateway integration**, ensuring a smooth and reliable booking experience.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

07/2021 – 06/2025

NIMS University Rajasthan, Jaipur

Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks, OOP

SKILLS

Frontend:

React.js, Next.js (App Router), JavaScript (ES6+), TypeScript, Tailwind CSS

Backend:

Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

Product & Platform:

Google OAuth, Payment Gateway Integration, SaaS SEO, Server Actions, External API & LLM Integrations

PROJECTS

AI Social Studio – Full-Stack SaaS Project 🔗

- Built and shipped a **production-grade B2C SaaS** with a full content pipeline, from **trend ingestion and processing** to **AI-assisted content generation**.
- Designed a **scalable backend** using **Node.js, Express, and MongoDB** with secure **JWT authentication, Google OAuth**, and background jobs.
- Built an **SEO-first frontend architecture** using **Next.js App Router**, including **sitemap generation, robots configuration, metadata strategy**, and **index control**.
- Took the product **end-to-end from system design to deployment**, focusing on **performance, security, and long-term scalability**.

Elegante – Full-Stack Web Project 🔗

- Built a **live full-stack web application** for a modern clothing brand using **React, TypeScript, Node.js, Express, and MongoDB**.
- Designed a **modern, responsive UI** with smooth frontend–backend integration and a focus on usability and performance.
- Used Git and GitHub for **version control**, feature branching, and managing end-to-end development from **design to deployment**.
